Alternate Assessment Breakdown Report

School Year: 2018 - 2019 | D0341 Oskaloosa Public Schools | Status: Submitted to KSDE on 12/20/2018

☐ Since the district's total test population is less than 300 and the total number of students participating in the DLM is 3 or less, no justification statement from the district is needed for the moment.

☒ Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.

IEP Teams, led by our special education teachers, assess our students using the DLM Participation Guidelines. Only students that have a significant cognitive disability, are being instructed using the DLM Essential Elements, and require extensive direct instruction and supports are eligible for DLM participation. Additionally, IEP teams regularly use data from previous DLM, KAP, NWEA MAP, and AIMSWeb assessments, if available.

☒ What are the district's next steps to ensure that annually the appropriate test is administered to each student?

All IEPs are reviewed annually, including the determination as to whether students are still eligible for the DLM and whether the DLM is still the most appropriate assessment for them.
