Alternate Assessment Breakdown Report

School Year: 2018 - 2019 | D0435 Abilene | Status: Submitted to KSDE on 12/20/2018

☐ Since the district's total test population is less than 300 and the total number of students participating in the DLM is 3 or less, no justification statement from the district is needed for the moment.

☒ Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.

Our rate of 1.02% equates to a tenth of a student over the 1% participation rate. We feel we have met the target.

Each team meets annually, or more, to evaluate all available data, request more data, and determine the appropriateness of the DLM.

☒ What are the district's next steps to ensure that annually the appropriate test is administered to each student?

We will continue to look at data for each individual student to determine if the DLM is the appropriate assessment.
