[X] Since the district's total test population is less than 300 and the total number of students participating in the DLM is 3 or less, no justification statement from the district is needed for the moment.

[ ] Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.

Our district was flagged as being over the 1% threshold simply because we had [redacted] students out of 114 taking the DLM assessment. We follow all designated regulations in qualifying students for the DLM, answering the "three questions" with fidelity in order to qualify. Unfortunately, in our district, our student numbers are so low, anything outside of one student will automatically qualify the district to be flagged.

[ ] What are the district's next steps to ensure that annually the appropriate test is administered to each student?
