☐ **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

IEP team reviews the Present Levels, current performance, IQ results. If the student is significantly below academically that interferes with their access to the general ed curriculum at the same rate as their peers, then an alternate is assessment is appropriate. Stanford Binnet Fifth Edition is used. Scores are less than .1% tile in all areas or significantly less. Student demonstrates cognitive abilities and adaptive behavior that requires substantial adjustment to the general curriculum. Learning objectives and expected outcomes focus on functional application as indicated in the benchmarks, indicators, and extended standards. Student primarily requires direct and extensive instruction to acquire, maintain, generalize and transfer the skills in the naturally occurring settings of the student's life such as school, vocational, community, leisure, and home.

☐ **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

Annual reviews are in place to assure data reflects appropriateness for testing. IEP teams deemed that DLM assessments are appropriate due to significant cognitive delay. Students are in functional settings.

Based on the data for our district, our LEA needs additional training.
