☐ **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

The IEP team uses the Kansas DLM participation guidelines when qualifying a student for participation in an alternative assessment (DLM). The IEP team considers:
1. information from the school psychologist on academic achievement and cognitive testing
2. information from medical professionals
3. the level that the student functions at in comparison with same-age peers
4. adaptive behavior data
5. consideration in that the student requires repeated, individualized adapted instruction
6. input from parents along with other IEP team members to determine if a student qualifies for an alternative assessment

Students who qualify for the DLM are instructed using the DLM Essential Elements.

☐ **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The district superintendent reviews the file for each student who has been recommended to take an alternative assessment with the resource teacher and school psychologist to determine if the student is taking the appropriate test.

Based on the data for our district, our LEA needs additional training.
