[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

IEP teams use multiple sources of data to make decisions on state assessments for students. Student observations, review of records, individual assessments, adaptive behavior scales and interviews are all used to make best decisions for state testing. HPEC's IEP has a form based on the state criteria for selection of DLM students. It is filled out by the IEP team annually. This form is used to determine if a student is eligible for DLM. In particular, IEP teams review data to assess:
Students' significant cognitive disability;
Students' significant deficits in adaptive behavior;
Students who are being primarily taught using the DLM Essential Elements as content standards; and
Students who require extensive direct individualized instruction support to achieve measurable gains in their curriculum.

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

HPEC and the school district will continue to review individual student needs to best fit with state assessments options using the DLM Participation Guideline each school year.

Based on the data for our district, our LEA needs additional training.
