[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

The student's IEP team meets to determine the most appropriate assessment for each student. The students cognitive abilities are a key factor. The student's selected for the alternate are not able to comprehend the curriculum standards with accommodations and modifications. They are assessed with adaptive assessment which indicate they are at least 2.5 SDs below the mean. These students have a highly individualize curriculum and are taught the Essential Elements with individualized instruction and support. The data shows that they must have practices repeated on a regular basis to be able to gain learning and to demonstrate growth.

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The IEP teams will continue to be trained through the SPED cooperative and other state entities to understand how to best assess and design educational plans for the students. Each year the IEP will be reviewed and it will be determined if the alternate assessment is the most appropriate, or if they are able to take the general assessment. Parents, teachers, administrators and support staff are included in these discussions and decisions, using data to guide their decisions.
The district is small, testing an extra 1-2 students can significantly skew the percentage tested.

Based on the data for our district, our LEA needs additional training.
