☐ **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

Prior to deciding which assessment the student will take, an Administrator will be present at an annual review meeting in the following areas:
*Student's progress on meeting goals on the IEP.
*Appropriateness of the goals set on the student's IEP.
*Review of the student's most recent results on the DLM in each of the areas tested.
If the student is found to be functioning within the expected range, the IEP team will consider the least dangerous assumption in taking the general assessment.

Based on the data for our district, our LEA needs additional training.
