[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

Our teachers of students who qualify to take the DLM go through the KSDE training, including watching the DLM video. When any student is considered for the DLM, the team uses the KSDE Rubric for Determining Student Eligibility for the Kansas Alternate Assessment (DLM) for Students with
the Most Significant Cognitive Disabilities to determine eligibility. This is a team decision that is decided during the IEP meeting, which includes the parents/guardians in the decision making process. In addition, the team reviews existing data including: Evaluation team reports, student's current IEP goals/progress, cognitive and adaptive functioning, verbal/nonverbal intelligence, executive functioning, adaptive skills checklist, and sensory and/or motor assessment for both fine and gross motor.

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The Coop will provide a copy of the KSDE Rubric for Determining Student Eligibility for the Kansas Alternate Assessment (DLM) for Students with the Most Significant Cognitive Disabilities and the DLM Participation Guidelines for review and reminder for every student taking the DLM. Our guiding questions that are already written in our IEP to support the DLM qualification decision will be modified to exactly align with the KSDE Rubric for Determining Student Eligibility for the Kansas Alternate Assessment (DLM).

Based on the data for our district, our LEA needs additional training.
