[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

Use of Rubric for determining eligibility are embedded in our IEP process. Along with the Rubric, the IEP teams use data for CBM and other informal assessments. When a student is flagged via an audit the team will go through all existing data to review eligibility.

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The DLM Participation Guidelines and Rubric for Determining Eligibility are now embedded in our IEP process. When the DLM is chosen for a student, the IEP team must either complete the Guidelines or Rubric at the meeting, including signatures. In addition cognitive and adaptive scores are reviewed for the student. If a student is red flagged a more critical review of data is completed.

Based on the data for our district, our LEA needs additional training.
