The DLM criteria has been outlined in the IEP requiring the IEP team to make a determination as to the student meeting criteria to take the DLM. Each school year, HCSEC Administration review the list and confirms or encourages teams to review the recommendation further. Beginning with the 2022-2023 school year, 2 new pages were added to the IEP system to prompt the team discussion regarding state assessments. Within the state assessment pages, team are to provide justification. Annually teams are required to address the following areas through the DLM criteria IEP page:
1. Cognitive assessment data supports a most significant cognitive disability (intellectual disability).
2. Adaptive assessment data supports a most significant deficit in adaptive behavior.
3. The student is primarily being instructed (or taught) using the DLM Essential Elements as content standards.
4. The student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in ALL grade- and age-appropriate curriculum at a reduced depth, breadth, and complexity.
5. Parent/legal education decision-maker notification includes discussion of ALL of the following areas.
The differences between the alternate achievement standards and academic content standards for the grade in which the student is enrolled; AND that the student's achievement will be measured based on alternate achievement standards; AND how the student's participation in alternate standards and assessment(s) may delay or otherwise affect the student from completing the requirements for a regular high school diploma; AND that the student will not be prevented from attempting to complete the requirements for a regular high school diploma; AND the LEA provided the parent(s)/legal education decision-maker with ALL of the above information in an understandable and uniform format and in a written language or oral translation that the parent(s)/legal education decision-maker can understand.
