[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

Each IEP team utilizes the Dynamic Learning Map Participation Guidelines to determine if the DLM is the appropriate assessment for the student to take: 1) the student has a significant cognitive disability that impacts intellectual functioning and adaptive behaviors; 2) the student is primarily being instructed using the Essential Elements as the content standards; and 3) the student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade and age appropriate curriculum. Considerations also include how each student did on the previous year's DLM (if applicable).

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The district will continue to have the IEP team make decisions using the DLM Participation Guidelines and the Alternative Assessment Flow Chart. The district will also look at the DLM results and have IEP teams reconsider the annually appropriate test if the student has scored At Target or Advanced on both ELA and Mathematics. Special education teachers administering the DLM will continue to receive training on both the flow chart, participation guidelines, and assessment rubric.

Based on the data for our district, our LEA needs additional training.

[ ] Yes [X] No

Our district anticipates testing over 1% of our students in one or more content areas during the school year.
