[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

LCNCK districts use the decision rubric that was provided by KSDE, which is embedded into our IEP program system. We pull from the most recent evaluation report and informal data where the student is currently academically and functionally performing.

We also have an instructional coach who works directly with teachers when a student is flagged for potential DLM assessment. She works closely with the teacher and school psychs regarding whether the criteria meets the KS alternate Assessment Rubric for determining Student eligibility.

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

Ongoing assessment of data is important to LCNCK in order to ensure appropriate assessments and services are always being rendered. We review the DLM data yearly and review upcoming situations where there could lead to a high percentage in the districts. However, we also are not driven by the high %, we are driven by most appropriate assessment and services provided to a student.

The current system we have in place, is very thorough and the review of the process is taken very seriously. We also monitor the alignment of teaching essential elements in order to ensure quality instruction is occurring. We recently purchased Styer-Fitzgerald Functional Curriculum, which goes beyond the essential elements and teaches skills to well-prepare our students who qualify to take the DLM.

Based on the data for our district, our LEA needs additional training.
