☐ **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

Each student who took the DLM this year will be reviewed for next years assessment by the IEP teams to determine if the DLM is the appropriate assessment. The IEP team will address the intellectual ability scores, adaptive skill scores, current academic ability levels, current goals and benchmarks addressed through the IEP goals and teacher data and reports not already listed. If students do not meet the guidelines as put forth by KSDE (more than two standard deviations below, etc.), then the IEP team will amend the student's IEP to remove them from the alternative assessment to take the general assessment with the accommodations that will be provided.
