☐ **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

In an effort to address disproportionality, the cooperative has updated Webkidss, our IEP platform, to include a comprehensive rubric for determining student eligibility for the KS Alternate Assessment as part of the forms within each student file.
Guidance shared with Leadership team members and certifed staff has been that the DLM rubric will be reviewed annually in detail for students who are currently taking the alternate assessment, or being considered for the alternate assessment.

The district will review our policies, practices and procedures for how we identify students for the DLM and place an emphasis on ensuring that we are correctly identifying the correct students male and female for the alternate assessment. When we compare our Alternate Assessment numbers from last year, we are making gains in reducing the number of students who take the Alternate Assessment. Our goal is to continue to decrease our disproportionality.
District Special Education teachers have been given access to the DLM resources that are currently available on the DLM website for KSDE. The Special Education Coordinators and the School Psychologists for our member districts collaborate with IEP team members at IEP annual review meetings in order to revisit the criteria that must be met to qualify for the DLM Alternate Assessment. They review all documents provided by KSDE associated with the DLM.
FHSEC staff continue to be diligent about reviewing the criteria for the DLM Alternate Assessment at all annual meetings in an effort to move students to the general state assessment.
With such a small population, we are very intentional about applying the DLM rubric appropriately to ensure alternate assessment is a true need for qualifying students.

☐ **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

Professional Development regarding the DLM Alternate Assessment has been provided at multiple PLC opportunities this year and will continue to be provided moving forward. PD will occur in large and small group settings to ensure that special education staff members receive the information in multiple ways.

The student IEP teams are utilizing the DLM criteria and participation guidelines, the alternate assessment flow chart, and the DLM rubric found both at KSDE and in Webkidss in order to determine whether a student is appropriate to be provided instruction via the Essential Elements as part of the DLM assessment. IEP teams also look at state assessment data from the previous years to help make informed decisions.

Based on the data for our district, our LEA needs additional training.
