Based on the data provided in KIAS for disproportionality, our district needs to address disproportionality (A risk ratio greater than 3.0 needs to be addressed.)

[x] Yes [ ] No

If yes, please explain how you will address the disproportionality.

We are a small school district and when we have so few of students who meet the criteria for the DLM, [redacted] can skew the data to disproportionate. We will continue to provide annual training and to use the DLM criteria for determining on an individual basis whether or not a student qualifies for the DLM.

Percentage of students performing at target or advanced on the DLM for the school year.

ELA:	0%
Math:	0%
Science:	0%

☐ **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

In order to determine whether a student meets the criteria for the alternate assessment, we use the present levels of the student, the cognitive scores, achievement scores, as well as fastbridge and aimsweb data.

☐ **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

We will provide annual training for all staff, the administrators of the DLM will also participate in additional training to ensure they are also in agreement with the test for the student as appropriate. We will also use current data and review it annually for each student tested.

Based on the data for our district, our LEA needs additional training.
