[X] **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

The data types and processes the IEP team utilizes to qualify students begin with the IEP team identifying students as eligible for the Alternate Assessment. The School Psychologist will then examine the student's IEP. They will assess whether there is adequate information regarding Intellectual (Cognive) Functioning and Adaptive Behavior (Daily Living/Functional Skills). If a 3-year reevaluation is necessary, the School Psychologist will collaborate with the special education teacher to complete the KSDE Intellectual Functioning and Adaptive Functioning Tool.

[X] **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The district's upcoming actions to ensure the students receive the correct test are ongoing professional development and annual staff review of past assessment data. Encouraging new teachers to thoroughly understand the students' reading and math levels before submitting information. Providing training on the initial contact survey, reviewing questions before submitting the First Contact Survey, and maintaining regular discussions with the school psychologist and parents.

Based on the data for our district, our LEA needs additional training.
