Based on the data provided in KIAS for disproportionality, our district needs to address disproportionality (A risk ratio greater than 3.0 needs to be addressed.)

[X] Yes [ ] No

If yes, please explain how you will address the disproportionality.

The makeup of your district is [redacted]. The percentage of [redacted] students, in comparison With the smaller total FTE of the district, this allows for subgroups to occur without a direct correlation, since there are a small number of students taking the DLM and assessments in general.
The same DLM eligibility process is used for ALL students, regardless of ethnicity, annually. The IEP Teams will continue using the DLM eligibility process, as defined by KSDE, for all students, annually.

Percentage of students performing at target or advanced on the DLM for the school year.

☐ **Please provide a narrative that includes the data types and processes that the IEP teams are utilizing to qualify students for the Alternate Assessments (DLM) in the box below and press Save.**

Currently, all IEP Teams in the district use two separate forms, annually, to determine whether students are eligible for the DLM or not.
First, they must consider why the student cannot participate in the general assessment. Next, they must explain why the DLM is appropriate for the student.
Then, as an IEP Team, they fill out the Alternate Assessment Rubric, which aligns with KSDE's DLM Participation Guidelines. They must ensure students are eligible in terms of both cognitive and adaptive scores.
Finally, the decision is made and all team members sign this document.

☐ **What are the district's next steps to ensure that annually the appropriate test is administered to each student?**

The district will continue to use this same process (as listed above) for determining DLM eligibility and ensuring that only students who truly are eligible for the assessment are taking them. A small number of students identified as being eligible to take the DLM can push a district beyond the 1% threshold, especially when the total FTE is low.

Based on the data for our district, our LEA needs additional training.
