

State Performance Plan and Annual Performance Report

(SPP/APR) FFY 2020-2025 Stakeholder Involvement

Parent Involvement

Kansas leads the world in the success of each student.

Parent Involvement SPP/APR Indicator

Each State is required to submit their FFY 2020
SPP/APR Part B Indicators 1-17 by February 1, 2022

Indicator 8: Parent Involvement

Three Requirements For Target Setting

1. Must be rigorous yet achievable
2. Must show improvement over baseline
3. Must be set with advice of stakeholders

Last Thoughts Target Setting

- Targets may remain the same several years in a row.
- Targets must show improvement over baseline in the end.
- The state must clearly and completely explain the rationale and method used

Indicator 8

Parent Involvement

What is Indicator 8?

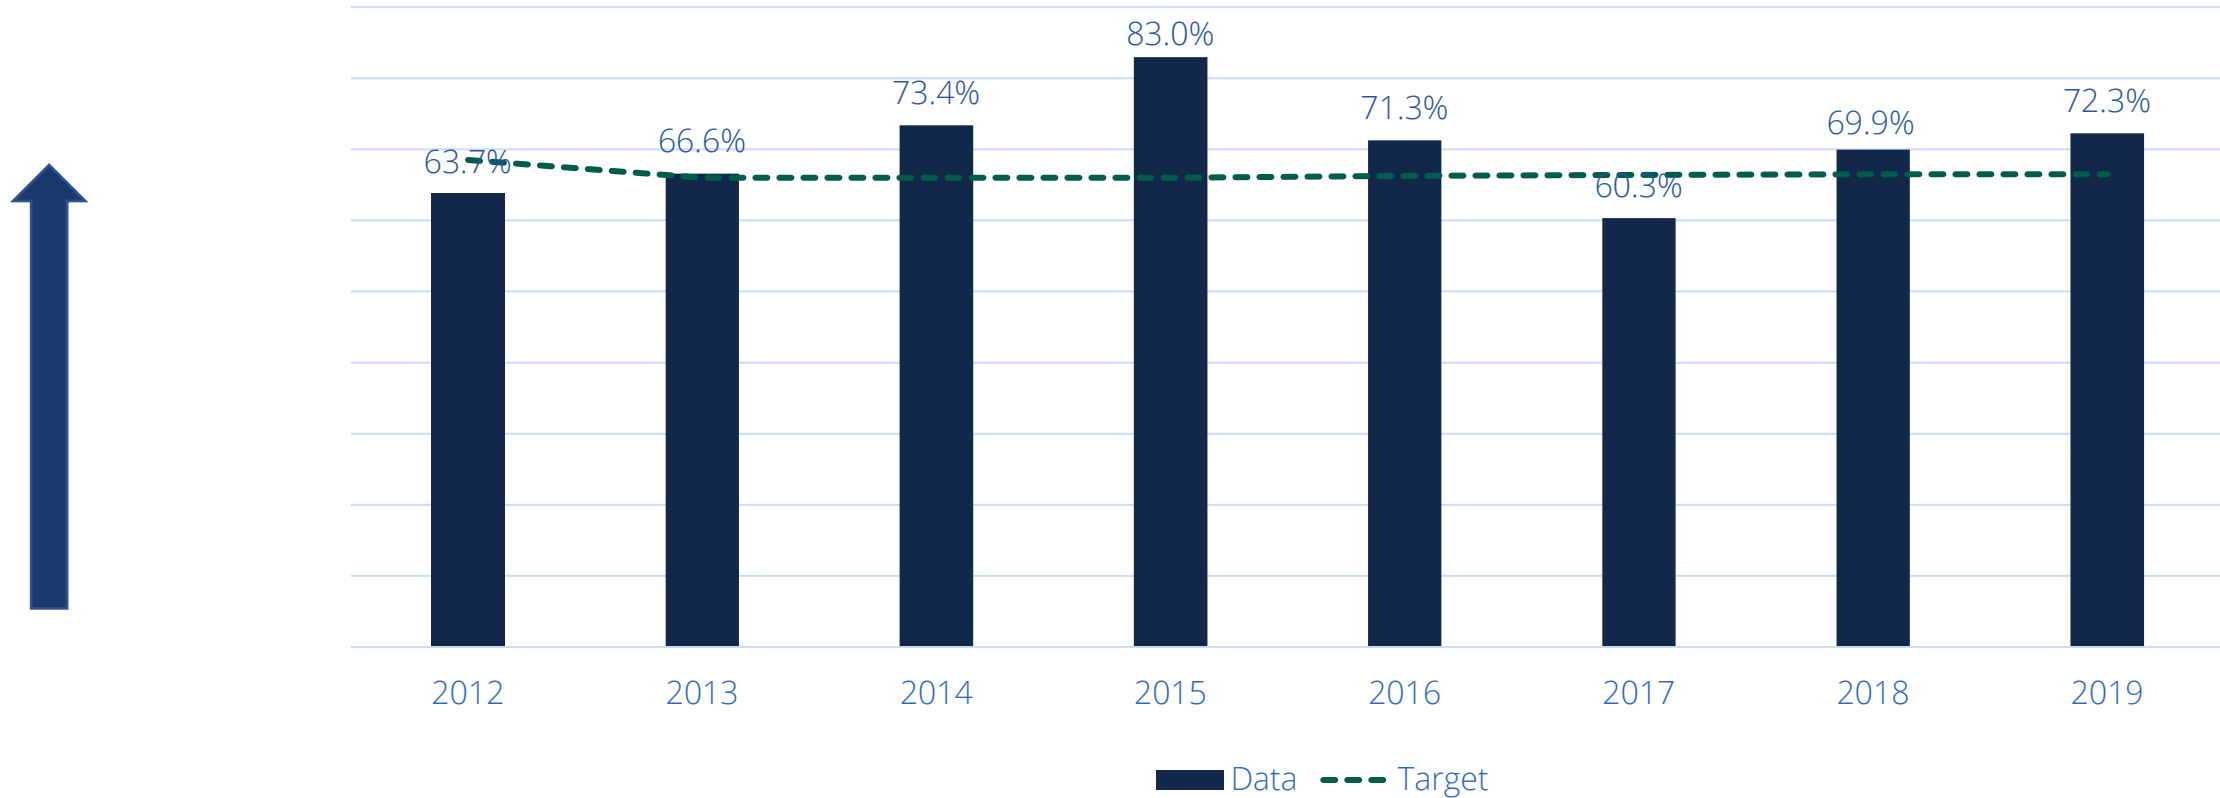

Parent Involvement

- Indicator 8 is the IDEA federal requirement to survey parent to determine the percentage of parents who have a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

Data source for Indicator 8:

- Districts survey parents of students ages 3-21 receiving special education services during the previous school year.
- Parents are sent a letter by email or mail that provides a URL for them to go online to complete the survey; paper copies are also available. Once every five years (the census year) the entire special education parent population will be sent a letter to collect their feedback regarding their participation in the special education process.

Indicator 8: Parent Involvement Over Time

Percent of parents who have a child receiving special education services who report that schools facilitated parent involvement as a means of improving services and results for children with disabilities.

Changes to Indicator 8 for the 2020-2025 SPP/APR Reporting Period

- KSDE will be changing the sampling plan from a random stratified sample to a statewide census every year. The survey sent to parents will contain one question:
 - “Did the school district invite you to take part in discussions for improving services and results for your child?”
- The survey will include demographic information including:
 - Disability Category
 - Geographic Location
 - Race/Ethnicity
 - USD Number
- The baseline year for this Indicator will also be changed once KSDE has accurate data from the upcoming changes.

COVID-19 Impacts

- KSDE does not have data from the most current school year, so it is impossible to know for sure if there was a COVID-19 impact.
- KSDE also made changes to our survey window and distribution, so it is hard to accurately attribute data changes to COVID-19.

Targets for Indicator 8 for the 2020-2025 SPP/APR Reporting Period

KSDE will use FFY 2005 data as a baseline, and to begin FFY 2020 with a target of 66.5%. This target will increase by 0.1% each year.

How did we determine the targets?

- Reviewed data from FFY 2014 to FFY 2019.
- Baseline was changed to FFY 2005.
- Increase of 0.1% was discussed. We want to see an increase!
- Linear forecasting was used as a tool for discussion.
- Ensured FFY 2025's target was higher than baseline year FFY 2005 per OSEP's guidance.

Data Visualizations and Feedback

- KSDE has partnered with TASN GSTAD to create interactive visualizations of each indicator's historical and projected data on a site called Tableau Public.
- These visualizations allow you to look at each indicator in depth, and break down indicator data by part, year, and percentages.
- They also allow you to see the KSDE targets, and you can change the projection step sizes to see how data from 2020-2025 could change. This tool will help you when leaving feedback about these targets.
- Finally, each visualization has the survey results embedded within it for you to review stakeholder feedback received on the targets.
- By clicking the link below, you will be routed to the Tableau Public webpage. Please be sure to look at the visualizations for each indicators.
