Introduction

Fiscal questions:

Dale Brungardt

Director
School Finance
Dale.Brungardt@ksde.gov

By statute (KSA 8-272), in August each year, the superintendent of each school district and nonpublic school shall report the number of students who have been in attendance for a complete driver training course during the past school year (between August 1, 2025, and July 31, 2026). Therefore, if a student does not complete the driver training course prior to July 31st, the school will not be able to claim that student for reimbursement purposes *for that year*. Students who complete the course after July 31st would be eligible to be claimed for reimbursement *in the following year*.

In the 2024-2025 school year, the reimbursement amount per pupil was \$145 for Driver Education and \$80 for Motorcycle Education (amount per pupil subject to change).

To receive a state aid payment in November 2026, LEAs must submit the Driver Education Reimbursement web application. All driver education and motorcycle education programs must have prior state board approval to be eligible for reimbursement. **Accuracy on this form is extremely important.** The driver education reimbursement claim MUST BE SUBMITTED NO LATER THAN August 31.

Webpage:

[Driver Education / Motorcycle Resources \(ksde.gov\)](https://www.ksde.gov)

Acknowledgement

Accuracy and completeness in reporting are extremely important since reimbursement is based on information given on the application.

Driver Education Overview

IMPORTANT: The driver education reimbursement report is not considered submitted until the “Submit to KSDE” button is clicked. The report then changes to **SUBMITTED** status. Please click the “Submit to KSDE” button after all driver education applications have been entered for the district no later than August 31.

SUBMITTING REPORT

- If you know there are more buildings in your district that need to complete the driver education application, do not click the “Submit to KSDE” button. Once the button is clicked, this message will appear on the bottom of the screen:

[The Driver Ed Report has been submitted for your district.](#)

[Contact KSDE at \(785\) 296-7935 if you need to add another application to your district's report.](#)

When you call, please give your USD number so we know what district to un-submit.

- If you click the “Ready to Go” button on a single application before you have verified it, you will not be able to edit the information in the application until it is released back to you by KSDE. Please call Jessica Apodaca at (785) 296-0952 or Amanda Williams at (785) 296-2020 and provide the number or building so we know which application to release back to the district so you can make edits.
- If your district does not offer a program, please select <NO PROGRAM for the district> then logout of the application (see page 5). If you click on “NO PROGRAM” by accident, you will need to call Jessica Apodaca at (785) 296-0952 or Amanda Williams at (785) 296-2020 and request that your district be taken out of “No Program” status. Then you will be able to add driver education applications as normal.

Import Screen

The first field on each record will be the record type to differentiate the type of record that is being imported (1=teacher, 2=student).

- Do not include both record types in the same file.
- If there are any errors on a record in the import, that record is skipped, and the import will attempt to import the next record.
- If there are too many records in error, the import will quit.
- Records (line#) listed in error on the screen should be copied to a new file and corrected, then re-imported.

How to check your import file (and correct) before doing the actual import: (Checks the fields needed for that driver ed application, whether it is automobile or motorcycle.)

More clarification on semester: If the district offers driver ed classes during school year and summer, choose [Yearly](#). If the district only offers classes during the summer, then choose [Summer](#).

It is recommended that districts **use the same semester designation** on all driver ed 'apps' for the district for that report year. This aids in KSDE statewide reporting.
