PRINCIPAL'S BUILDING REPORT

The purpose of the PBR is to give building/district staff the opportunity to review and approve the enrollment data used for funding. Individual student records are submitted to the Kansas Individual Data on Students (KIDS) system. The KIDS ENRL (enrollment) Collection is the official enrollment for all students enrolled and attending on September 20.

Accuracy is extremely important when submitting KIDS records. The KIDS ENRL Collection is the official data used to determine the enrollment and various weightings used for computing the district's General Fund and Supplemental General Fund Budgets. The aggregate ENRL data will populate to the Headcount Table and Weightings Table, as well as the Superintendent's Organization Report. Throughout the year, requests for information from these reports will be provided to the Legislature, U.S. Department of Education, educators, members of the media and patrons.

Instructions are provided on each screen. Additional detailed information may be available for a screen by clicking on the Help icon in the upper righthand corner of the screen.

Important Terms

KSDE has created a glossary of terms in the next few pages to help clarify words and phrases that may be unfamiliar to you. Please take a minute to review these important terms before continuing:

Terms	Meaning
Directory Updates	A district level web application, typically managed by someone in the Central Office (Superintendent, Board Clerk or any other designated individual). Directory data for the building, such as Schedule Information, populates to portions of the PBR.
ENRL Record	The ENRL Collection focuses on gathering enrollment and program participation information on students. This is the data that is used to populate sections of the Principal's Building Report (PBR) and the Superintendent's Organizational Report (SO66), which are in turn used for state funding (based on the September 20th Rule) and for federal funding calculations.
KIDS System	Kansas Individual Data on Students (KIDS) system is used to manage educational data collected to meet state and federal reporting requirements. Data uploaded from your student information system to KIDS is used to populate the PBR.
Student Information System (SIS)	A software program that administers and maintains student information, such as enrollment, scheduling, attendance, accounting, and grade reporting, for that district/school. This software is installed on the school's local network and computers.
Superintendent's Organization Report (SO66)	A district-level report that aggregates unaudited data from the KIDS ENRL to determine funding. The electronic submission is considered your signature as certifying the data as accurate when submitted to KSDE.
Principal's Building Report (PBR)	A building-level report that compiles data from KIDS ENRL. Principals (or other designees) approve the PBR for the Superintendent to submit.

6. Click **Principal's Building Report (PBR)** and you should see the following screen. Check the access level at the top right in the blue bar. If you are a **Superintendent**, this should say "District Approve", if you are a **Principal**, this should say "School Update". Notes: If you do not have access to the Principal's Building Report (PBR) web application after requesting access for a current Username or registering for a new username, then please contact our IT Help Desk (helpdesk@ksde.gov) at (785) 296-7935.

At the top left in the blue bar, you can find the current organization associated with your username. If this organization is incorrect, please reference the [New Users](#) section and register as a new user for the correct district.

School-level access is usually for data entry staff, administrators, and program staff who are submitting and/or viewing PBR data **only** for their school. District-level access is for data entry staff, administrators, and program staff who submit and view PBR data for multiple schools within the same district.

"Update" access is the most typical form of access, and allows the user to both work in the application and view reports that are generated from KIDS data. "Read-only" access does not allow the user to interact with the application (i.e., upload batch files), but allows the user to view the data and reports contained in the PBR. Also, be aware that the types of reports that you have access to depend on what is entered in the "Building" field on the web applications registration page. Click on the "Manage My Account" button to see the level of access approved for each application. This can be updated and resubmitted to request a different level of access.

Logging into the PBR

About The Principal's Building Report (PBR)

The purpose of the PBR is to give building/district staff the opportunity to review and approve the enrollment data used for funding. Enrollment data is populated on the PBR based on individual student records submitted to the Kansas Individual Data on Students (KIDS) web application during the ENRL (enrollment) Collection. All students enrolled and attending on September 20 should be submitted.

Accuracy is extremely important when submitting KIDS records. The ENRL Collection is the official data used to determine the enrollment and weightings used for funding. In addition, requests for information from these reports will be provided to the Legislature, U.S. Department of Education, educators, members of the media and patrons.

September 20 Rule (ENRL): Students must be enrolled and attending on September 20. If absent on September 20, the student must have attended once before September 20 and once after September 20 but before October 4. If September 20 falls on a non-school day, use the first school day after September 20.

February 20 Rule (MILT): In order to qualify for the Military Second Count, the enrollment of “Military Dependent” students on February 20 must be 25.0 FTE or an FTE equal or greater than 1% of the current year's September 20 enrollment who were not already counted by the district (excluding virtual students). If eligible, the Military Second Count will be treated like September 20 for funding purposes and will be added to the district's September 20 enrollment, including all weightings assigned to these students. The attendance window will run from February 1 to March 4. If absent, the student must be enrolled on February 20 and attends at least once on or after February 1 AND once after February 20, but it must be before March 4. If February 20 falls on a non-school day, the count day moves to the next school day.

Kindergarten Sessions

Users who have selected grades Kindergarten in the Directory Updates Web Application, Buildings Screen, will be prompted for information regarding the number of Kindergarten students they have for each Kindergarten Session type. Users will need to **manually enter** the headcount into each session reported.

The current/expected values are a comparison of the value entered on the Kindergarten Sessions and the actual headcount enrollment your district uploaded to the KIDS Collection System. These two values **must** match before you will be allowed to approve your report. If your expected number is incorrect, you will need to log into the KIDS web application and upload the correct data for the missing or additional students so it will match the actual number you have and are manually entering on the PBR.

KINDERGARTEN SESSIONS

Please enter Kindergarten headcount for each session. This should match the total (expected) Kindergarten headcount.

Kindergarten sessions are populated from the Directory Updates application (Building Data page). If this information is not correct, please contact the designated person in your Central Office who is responsible for the Directory Updates application. Corrections will be reflected on this screen immediately after saving Directory Updates.

Note: If you have multiple classes with the same schedule, this is considered as one session.

5-Year-Old Preschoolers: For funding, these students' KIDS ENRL records should have a grade level of Kindergarten (KG) regardless of placement. **If they are not attending the same Kindergarten session as listed below, please add a new session in the Directory Updates web application.**

Directory Updates Application Questions: Marcia Ricklefs (mricklefs@ksde.org) at (785) 296-4209.

The aggregate enrollment counts are pre-populated based upon individual student ENRL records submitted to the KIDS Collection system. Click on any linked number to download the list of students.

To correct the headcount, an updated ENRL record must be submitted for the student(s) in question. To remove a student from the enrollment count, submit an updated ENRL record with Minutes Enrolled = 0 for this funding building number.

Preschool-Aged At-Risk (3 year old): Beginning 2022-2023 school year, these students are included in the FTE enrollment and weightings for funding purposes.

Kindergarten: Preschool students that are 5 years old on or before August 31 should be reported as Kindergarten (D10 = Grade KG) for funding purposes, regardless of their placement.

Free Meal Headcount is used for determining At-Risk funding, which excludes students enrolled less than full time in grades 1 through 12 or any student 20 & older as of September 20. These provisions do not apply for students on an individualized education program (IEP).

Bilingual Headcount includes students with a Participation Code of 1, 2, 3 or 7 (KIDS field D44).

Note: Virtual students are INCLUDED in the Total Headcount, Concurrent High School Enrollment and FTE columns only, but EXCLUDED from Free Meal Headcount, Reduced Meal Headcount, IEP Headcount and Bilingual Headcount.

The 2024 House Sub for Senate Bill 387 [Section 9 paragraph (j)(1)] requires the KSDE to audit each district's Open Enrollment capacity. Open Enrollment

K.S.A. 72-3123 through 72-3127 requires the KSDE to audit each district's Open Enrollment capacity. The information necessary to complete the audit will be collected on the **Principal's Building Report (PBR)**.

Shown below are headcounts that will be required by grade level for open enrollment students:

- Number of Nonresident Students Accepted (*uploaded in ENRL record)
- Enrollment Capacity,
- Projected Enrollment,
- Denied for Capacity,
- Denied for Other Reason.

* The number of nonresident students accepted is populated on the PBR based on the [KIDS ENRL](#) (enrollment) record using **Field D93 = 1** (YES, Open Enrollment Student).

The other counts will be hand-entered in the new **Open Enrollment Data Table** (example below) on the PBR Headcount Table screen.

Open Enrollment Data Table

Grade	Enrollment Capacity	Projected Enrollment	Denied (Capacity)	Denied (Other)
Grade 7				
Grade 8				
Grade 9				

Open enrollment information will be certified to the KSDE annually on the Principal's Building Report (PBR). For more information: [Fact Sheet: Open Enrollment Law \(Nonresident Transfers\)](#)

If you have questions only on the Open Enrollment Data Table, contact [Gabrielle Hull](#) (785) 296-7840. If you have any other questions pertaining to the PBR, you can contact [Rose Ireland](#) 785-296-4973, [Marcia Ricklefs](#) 785-296-4209 or [Daniel Kalas](#) 785-296-4972.

Clicking on any reported value (except Free or Reduced) will provide a breakdown of student details that are used to populate the report, which can be downloaded to Excel spreadsheet. The data that displays depends on the column you select. You can use this list to balance against your student information system. Data is downloadable to MS Excel. Please note, the following rules apply in the reported data:

- Students must have an **ENRL record with 18 minutes or more** to be counted, which will generate their FTE. Students with 17 minutes or less will not be counted as they will not generate an FTE ($17 \div 360 = .047 = 0.0$ FTE), unless they have an IEP. **Concurrently enrolled** students must have 15 minutes or more.
- All students are reported at the grade level indicated by their KIDS record. If a student is five years of age by August 31, they should be reported as **Kindergarten** regardless of their placement.
- Does not include students residing at the Flint Hills Job Corps Center, or students confined in a juvenile detention facility or psychiatric residential treatment facility under KSA [72-1173](#)

- **Free Meal Headcount** excludes Virtual and any pupil enrolled less than full-time (FTE less than 1.0 FTE) in grades 1 through 12 or any student 20 years of age or older as of September 20. These provisions would not apply for any student that has an individualized education plan (IEP).
- **IEP Headcount** includes all students who have active IEPs (D35 and D36).
- **Bilingual Contact Hours** includes students with a participation code of 1, 2, 3 or 7 in field D44 and **Bilingual Student Contact Minutes** in field D46 of the KIDS File Specs. Bilingual Headcount includes students with a participation code of 1, 2, 3, or 7. Excludes Virtual Students.
- **Concurrent High school enrollment** is students reported in field D25 of the KIDS Files Specs, who are receiving both high school and college credit for coursework.

FTE (full time equivalency) is computed based on KIDS ENRL minutes enrolled (D24). A **part-time student** is a student who attends school less than 360 minutes per day or a student who attends high school and a postsecondary school for dual credit, for less than 300 minutes a day (see KSA [72-3220](#) and [72-5132](#)).

- **D17: Virtual Education Student**
 - Value 1 and Value 4
 - Virtual students 19 and under are funded based on the number of minutes enrolled and are not eligible for any weightings.
 - **D24: Minutes Enrolled**
 - For Part time: 18 minutes or more and less than 360, or 15 minutes or more and less than 300 for concurrent high school enrollment students

Seminar Period

Seminar is a block of time allotted within the school day where students have the opportunity to go to any teacher outside the regular class period and get help. Since CTE teachers are part of the seminar, some seminar time can be added to CTE Contact Minutes. Seminar time is computed separately from class time and reported manually on the PBR. **If your building does not have a Seminar Period, you can still submit the PBR with the error warning of Seminar minutes value is zero.**

Weightings Category	Value	Weighted FTE (Info only)
CTE Contact Minutes	490.0	
CTE Seminar Minutes	0.0	
CTE Contact Hours	8.2	0.7
Bilingual Contact Hours	80.4	5.3
Bilingual Headcount	29.0	5.4
Free Meal Headcount (At-Risk Funding)	71.0	34.4
High Density At-Risk Weighting		0
Virtual Students FTE (Full-Time)	8.0	\$ 40000
Virtual Students FTE (Part-Time)	0.2	\$ 340
Virtual Credits (20 and Older)	0	\$ 0
Virtual Credits (Dropouts 19 & Younger)	0	\$ 0

To compute "Seminar Minutes" you must first know the average number of minutes per day of the seminar period. This average number of minutes is then divided by the number of classes in a full-time student's schedule and rounded to a whole minute. Using the Same Schedule Every Day sample on page 8 and if the seminar is during period 6, then 52 is divided by 6 to get 8.666 which is rounded to 9. Next multiply the allowed seminar time (9 min.) by the number of students enrolled in approved classes. This is made simple if you use the same spreadsheet shown above to verify the total minutes. Total the column with the enrollment in each class (in this case 50) and multiply by allowed seminar time. $50 \times 9 = 450$. On the PBR enter 450 in the seminar minutes section.

Exceptions for counting seminar minutes:

Time for Professional Learning Experience (PLE), or In House Training (IHT), are not included in the seminar calculation.

Students who have a class scheduled during the seminar period, or who are not scheduled in the

building during seminar period, will not be included in the seminar count.

If the teacher for any approved class has some other class scheduled during the seminar period, or is scheduled out of the building during the seminar period, all of that teacher's technical education class enrollment will be excluded from the count.

Seminar minutes for Career and Tech Ed must be manually calculated and included here. For instructions and forms on calculating seminar minutes, please go to the <https://www.ksde.gov/policy-and-funding/funding/fiscal-auditing> THAT OPERATE ON A FOUR-DAY WEEK. Schools that have four-day weeks usually have a longer school day than traditional five day per week schools. Calculating CTE minutes for these schools is total minutes per week divided by five.

Approve/Submit PBR

When the PBR report is accurate, it is time to approve the report for your district's Superintendent to review. This page will display a list of *warnings* that may require additional review, and possibly edits by you before submitting.

A warning does not necessarily mean that data is inaccurate; it simply means that data is missing or doesn't match an expected value. Some districts may receive no warnings at all. In the screenshot below, the warning is showing the building didn't upload any ESOL/Bilingual Student Data in KIDS. This warning serves to ensure that the building is properly coding their students for potential funding.

Even though this warning does not have to be corrected before submitting your PBR, it is good practice to verify that the data uploaded into KIDS is correct before submitting your PBR.

If the severity of the warning is "Cannot Submit" and also has the "Stop Submit?" box checked, the error must be resolved before users can approve the report.

WAIT! An error was found after approving the PBR – next step? You must un-submit.

Un-submitting the Principal's Building Report

If an error in data is discovered after approving the PBR report, read instructions below:

- If the S066 was submitted to KSDE, the contact person will need to call KSDE School Finance. [Katie Albright](#) at (785) 296-3872 or [Amanda Williams](#) at 785-296-2020 to request both the S066 and PBR be unsubmitted. The district office will need to re-submit the S066, once corrections to the PBR are completed.

If the S066 has not been submitted, please contact your district office personnel that has "District Approve" access to the S066 and request the PBR to be un-submitted. This can be done from the S066 – PBR Work Que as shown below.

Confidentiality & Security

Data Confidentiality

In recognition of the importance of confidentiality surrounding student data, KSDE has developed a Privacy Statement. This statement has been adopted by KSDE and is included in all staff security awareness training.

We encourage districts to review and understand this policy. Districts should determine how the information in this policy relates to their staff and their internal practices, and are welcome to adopt it or any portion of it. The Privacy Statement document can be found on the [Research and Evaluation page of the KSDE website](#).

Computer Environment Security

The following are generally considered to be the basic guidelines for maintaining a safe, secure computer

environment. This is by no means a comprehensive list, but these guidelines can help ensure that viruses, hackers, and other threats do not compromise data or an entire computer network.

- Maintain up-to-date antivirus software: Anti-virus software for any particular type of device should be running and up-to-date on every level of device, including clients, file servers, mail servers, and other types of networked devices.
- Use host-based firewall software when possible: Host-based firewall software, for any type of device, should be running and configured according to the guidelines for your organization.
- Use strong Passwords and protect them: The following are guidelines for a “strong” password:
 - At least 8 characters long
 - Contains at least 1 numeric value or special character
 - Contains at least 1 upper case letter
 - Contains at least 1 lower case letter

There are some basic guidelines for creating good passwords. Do NOT write your passwords down on a notepad, on a sticky note, or anywhere else where it might be seen. Do not use the name of your partner, your address, your pet’s name, your children’s names, etc. as your password—these are probably the first words that somebody attempting to access your information or software system would try. Do not use words. No matter how expansive your vocabulary is, there exist “cracking” programs that can try every word in the dictionary to find your password. One of the best techniques for creating a good password is to use initials of a saying or sentence that is meaningful to you. Use numbers and “special” characters (such as symbols, spaces, and capital letters) in your password.
